$$\frac{\text{Variable Geometric Mean}^2 \text{ as Multiplier} \times \text{Multiplicand}}{\text{Unit}} = \text{Scaled Product of Given Ratio}$$

Euclid's Elements Book 5 Proposition 12 Commentary :

Given a known Product and Geometric Mean Magnitudes placed Perpendicular to each other at a point, one can find its Unit Magnitude by forming its Diagonal from the Geometric Mean and the Product Magnitudes, a Perpendicular line is extended to the point that meets the axis that Product Magnitude lies upon, forms the Unit Magnitude's point that's colinear to the Product Magnitude, of which that point can be used to form another point upon the axis that new Geometric Mean Magnitude lies upon to form another Diagonal and another Perpendicular line to that Diagonal extended to the point that meets the axis that Unit and the Initial Product Magnitudes lies upon, forms the new Product Magnitude scaled in relation to the Unit Magnitude and the new Geometric Mean Magnitude

This is called the “Georithmetical Product Scaling through Variable Geometric Mean Theorem”

On Spirals Proposition 19 Commentary :

Through the "Georithmetical Product Scaling through Variable Geometric Mean Theorem", the radius of any given circle as half of the Diameter of that circle as the Geometric Mean Magnitude and the Circumference as the Product Magnitude, the Area of the circle is realized through multiplying the radius : Diameter as the radius as Geometric Mean Magnitude to itself as the new Geometric Mean Magnitude, while using the Unit Magnitude of the radius and Circumference to form its Diagonal to form it's Perpendicular to form the new Product Magnitude with a measure of one - fourth of the Circumference Magnitude, is the linearized representation of the Area of the circle as a Product Magnitude

Inverse Geometric Mean Magnitude Intervals as Hyperbolic Spiral Analog :

Given a known Product, Geometric Mean, Unit, Diagonal Magnitudes, one can extend the Geometric Mean Magnitude by a Unit Geometric Mean Magnitude increments as a Geometric Mean Magnitude Interval, can produce the Product Magnitude accordingly to the same Unit Magnitude before using the Diagonals from the points of the Intervals and its Product Magnitude to then reflect those Diagonals across the Geometric Mean Axis then form its Parallel line at the Unit Magnitude's point away from Origin, forms the Inverse Interval and with a Perpendicular Diagonal, its Inverse Product

The Chronologically Sixfold Transcendental Unific Liberation Ontology Truth on the Masterful Noble Middle Way unto the Emancipating Immortal Light Abode of the Ultimate Supreme Absolute Perfection, Abridged

Chronologically 1st, Hierarchically 2nd, Pre – requisite for 2nd Noble Truth :

The timelessly indiscernible Primordial Ignorance grasped by the Intellect actualizes Craving/Agitation, becomes the Burden – Carrier condition, leads to Suffering for that Person

Chronologically 2nd, Hierarchically 2nd towards 3rd, 2nd Noble Truth :

The Ignorant Intellect in Craving/Agitation begets rebirth conjoined with Lusts leads to dissolution of ones very being both here and there, Transmigrates in becoming and in unbecoming through Craving/Agitation, is the Genesis of Suffering

Chronologically 3rd, Hierarchically 3rd towards 2nd, 1st Noble Truth :

The Ignorant Intellect in Contact with Corporeal Identity, Birth, Old Age, Death, Sorrow, Lamentations, Pain, Misery, Gloom, Conjoinment with the Despised, Separation from the Beloved, not getting what you desired, the Five Aggregates of Forms, Feelings, Perception, Experiences, Consciousness, is Suffering

Chronologically 4th, Hierarchically 3rd avoiding 2nd seeks the Way penetrating through the 2nd towards the 1st, 3rd Noble Truth :

The Ignorant Intellect that Completely Subjugates the conjunction to Craving/Agitation and Lusts, abandons them in returning into the Supreme Emancipation from further dwelling in Desires, is the Subjugation of Suffering

Chronologically 5th, Hierarchically 3rd towards becoming the 1st or descends back in failure towards the 2nd, 4th Noble Truth → Noble Tenfold Path :

The Process of the Purification of the Intellect through Abiding/Agitation, without Ignorance goes into the Subjugation of Suffering and returning to the Light(wazing) via: 1st Vision of Revelation of Perfection: Penetrating Knowledge into Nature of the Four Noble Truths, 2nd Vision of Unity – Insight of Perfection: Unity – Insight: on Manifest Karma Formations, into the unchanging Light, into deathlessness, 3rd Illumination on Doctrine of Perfection: To separate from the heresy of worldly: perpetual rebecoming, aggregated manifesting, duality which is void, 4th Illumination on Disembodiment of Perfection: To separate from worldly: darkness/despondency, partaking of attachments in this life, pluralists in endless desires faring on *this* world, 5th Illumination on Soul – Conjoinment of Perfection: Those who forsakes his soul being in manifold plurality, the soul is perfected by the Soul's conjoinment with Perfection, 6th Release unto Separation – from – manifoldness of Perfection: Those that burns in the powerful lifting up from mental formations beholds separation – from – manifoldness in powerful and mighty attainment such that they beguets the bringing forth great release: so that phenomena do not arise, that the root of wickedness is not begotten to be born such that would befall evilness, in abandoning arisan phenomena and the powers of wickedness which have arisen upon them, to cause wholesome Dhammas which have not arisen upon them to now be begotten unto them, that wholesome Dhammas which have arisen will be everlasting in them, and that unparalleled exquisite unity may become greater and greater in them until fulfillment of becoming is supremely perfected, 7th Release unto Recollective – Conjoining of Perfection: Those that has extricated the Self in proper guiding from both desires covetousness and dejection of this world, and has possessed of vigilant unity in burning meditativness of recollective – conjoining of the origin, by wisdom's blazing vigoronsness of intent in beholding: what is the body, feelings and sensations, mental formations, phenomena, and what is antecedent in origin prior to these arisings thereof, 8th Release unto Unity – Conjoinment of Perfection: Those that has: Extricated the Self from sense – desires, wicked – mind formations, is removing unto Unity from evil twisting – and – whirling – about of phenomena and endless faring on *this* world, has extricated from the dark – and – evil – light, absorbs by immersion in golden illumination of sweet exquisite bliss unexcelled, Subdued both the evil twisting – and – whirling – about and the endless faring on *this* world, made conjoinment within Perfection, shines with brightness and clarity in the Unity arisen from the True Self, with exquisite Mind turned in the great becoming towards the unmanifest – singularity, removed from evil twisting – and – whirling – about and endless faring on *this* world, made Unity Conjoinment absorbs by immersion in golden illumination of sweet exquisite bliss unexcelled, Permeates in absorbing by immersion into that golden illumination; passionless, brought unto abiding in disembodied equanimity, deep in recollective vigilant Unity in burning meditativness, their entire being suffused in exquisite bliss beholds conjoinment – abiding within Unity – fulfillment which the Nobles proclaim: “They abide in disembodied equanimity in recollective – conjoinment dwells sweetly in most exquisite bliss unequalled”. Transcended bliss – abiding, manifold – existence – suffering, gone to annihilation both joy/happiness and dejection/grief of spirit in many previous existences *this* world; has neither manifold – existence – suffering nor bliss – abidance anymore, most sweetly disembodied of both in recollective – conjoinment of transcendence into exquisite rapture supreme unequalled

Chronologically 6th Final/Ultimate, Hierarchically 1st Highest/Supreme, 9th Supreme Knowledge of Perfection → 10th_b Supreme Release of Perfection → 10th_b Final Supreme Release of Perfection → 10th_c Arising of Supreme Perfection

Circumscribed 1 unit square meets 1 unit diameter circle at four intersections, the square and circle has internally 360° unity with each other, there's one circumscribed polygon with 1 unit perpendicular midline with 1 unit side
 Inscribed square area : circumscribed square area = inscribed square side : circumscribed square side = inscribed square side, no inscribed equilateral polygon with 1 unit diagonal with 1 unit side
 Given an equilateral n → ∞ sided polygon with the same area as the circle, it decreasingly approaches the measure of the circumference of that circle with the same area as that polygon
 Given an equilateral n → ∞ sided polygon with the same perimeter as the circle, it increasingly approaches the measure of the area of that circle with the same circumference as that polygon
